

October 2022 – Newsletter "Research in Germany"

Dear reader,

We are starting this issue off with a personal request: as we are evaluating our newsletter we would love to hear your thoughts and ideas about it! Please find the link below and take a few minutes to help us improve our service.

What's more? Successful research with an excellent research structure in Germany: this year, the Nobel Prize for Physiology or Medicine goes to Svante Pääbo, the director of the Max Planck Institute for Evolutionary Anthropology in Leipzig. He is honoured for his pioneering work in the field of palaeogenetics. Moreover, the ZEIT GERMANY Study & Research magazine 2022 is out and absolutely worth a look if you are searching for an overall guide to researching and living in Germany. And for those more interested in practical research insights into labs and institutions, we have a hashtag on offer that will take you on a tour through the German green energy sector. Come along!

**Recent activities****Your opinion wanted: Please evaluate our newsletter**

To best tailor our service and content to your needs, we need your feedback: Please take a few minutes and give us valuable input on how we could improve our newsletter by answering our questions.

**Science news****Nobel Prize 2022 for Svante Pääbo**

Successful research with an excellent research structure in Germany: This year, the Nobel Prize for Physiology or Medicine goes to Svante Pääbo, the director of the Max Planck Institute for Evolutionary Anthropology in Leipzig. He is honoured for his pioneering work in the field of palaeogenetics, of which he is considered the founder. One of his most important scientific successes was the decoding of the Neanderthal genome.
