Connecting scientific competence and extraordinary economic power in China with German high-tech expertise and research excellence in the field of innovative healthcare solutions – this is the aim of the **InnoHealth China** campaign. The campaign is led by the **Fraunhofer-Gesellschaft** – Europe’s biggest organization for applied research and development services – as part of the initiative “Research in Germany” which is funded by the German Federal Ministry of Education and Research (BMBF). Take the chance to join the campaign and meet your German partner at our Pre-Matching!

What is the Pre-Matching about?

6 teams of German experts – the so called German Research-SME-Tandems and all winners of the Call for Ideas & Innovation of InnoHealth China - are looking for Chinese partners in order to jointly develop innovative products, facilitate the mutual market entry and explore funding possibilities. Briefly: Finding cooperation partners!

What do you get?

The virtual Pre-Matching – followed by matching events in China during our **Matchmaking Tour** in September – gives the German and the Chinese participants the opportunity for a first contact. This is how you can identify suitable collaborators to bring one of the following innovative project ideas to fruition.

Furthermore, the Chinese partners selected by the tandems will get the chance to participate in the **German R&D Tour** in December, having the unique chance for an insight into the German research landscape and how innovation “made in Germany” works.

Invitation

These are the innovative projects:

- **Health Dissemination China** - Increasing Innovation by Networking and Cooperation (Precision Healthcare)
- **ASF-Detect** - Platform for Fast and Automated ASFV Detection On-site (Biotechnology & Drug Discovery, Healthy Food)
- **FeFoMed by Xpectors** - The Value of True Feedback (AI, Telemedicine, Precision Healthcare, Biotechnology & Drug Discovery)
- **Kidi, Digital Nutritional Assistant (kidiDNA)** - Digital Integrated Care Supply Platform for Patients with Kidney Disease (AI, Telemedicine, Precision Healthcare, Healthy Food)
- **ThevoSmart** - The Care Companion (Telemedicine, Precision Healthcare)
- **What's your age?** - Improving Health Using a Precision Healthcare Method (AI, Precision Healthcare)

You will get exclusive information on each project and expert after your registration for the Pre-Matching.

How to 'meet and match'?

Step 1: Register under

and add your company profile.

Step 2: Book a matching slot with one or more tandem(s) until August 16.

Step 3: Meet & Match on August 27 and 28!

Please note:

The preferred meeting language is English, but there will be some Chinese support.

For the smooth running of 'Pitch&Match' we kindly recommend the use of the following browsers: **Firefox, Opera or Chrome.**

Schedule

- 2:30 pm: Introduction to the campaign and the event's technology
- 3:00 pm: Matching sessions via video call with slots of 30 minutes each.
- 7:00 pm: End of the last matching slot.

Please note: **Registration closes on August 16.**

We are looking forward to welcoming you to our Pre-Matching on August 27 and 28, 2020!

With the support of:
